Subject: tablet use and consent for use
Attachments: STA Tablet use Consent Draft.docx

Importance: High

Good morning.

We are expecting delivery of the tablets for use for video chatting/calling **later this week**; however in preparation for that delivery, I have attached a document for your review and consent **is needed** to use these devices with your loved one.

Please **review, sign and return** the attached consent for our files for use of the tablets. These must be returned to get this communication effort up and running.

Please go to this link to download the application needed for video chatting with our tablets: <https://support.google.com/duo/answer/6386089?co=GENIE.Platform%3DiOS&hl=en&oco=0>

We will need to schedule times for the chats to occur- however we will need your cell phone numbers of the devices you will be using as well.

St. Ann staff will enter the number of the family member's device and initiate the call

After each call/use, staff will disinfect the tablet.

It is important to note that

- Families may not call/send the invite for a chat to the tablets- it may be in use with another resident.
- Call history will periodically be deleted
- We will ensure no other residents are seen in the video.

Again, we thank you for your patience with us as we work to get this communication access to you and your loved ones.
