July 12, 2020

It is with great relief that I can report to all of you that my re-test COVID-19 test results are in and I AM NEGATIVE!!!!

It seems the July 2nd testing must have been a false positive- as I had hoped.

My family continues to await their results (they were tested a day later than I was) but we continue to be positive and optimistic that this was just a false alarm for all of us.

What I have learned is that I am blessed beyond words for the team I have at St. Ann and for the community we have with all of you.

Thank you again for all your love and prayers.
