October 30, 2020

Good Afternoon. Today we had the mobile testing team (the National Guard) come and test all staff and residents. The results of these tests will begin coming in this weekend and I am hopeful for some good news. The residents all seem to be doing fairly well- as we continue to be monitoring all of them closely for any signs and symptoms. We have been in close communication with the state about our efforts here at St. Ann to contain an outbreak and they report we are doing what we are supposed to be doing. I ask all of you for your continued prayers as we work through this new situation day by day and even hour by hour. We do have a few of our staff out on quarantine as precautionary measures.

To date we have 3 staff out on quarantine with positive results of COVID-19 testing.

Life Enrichment update: Due to the current situation here at the facility – group activities were not an option, so one-on-one visitations was our only resource. As part of these much-appreciated visits, we provided healthful interaction with Gentle Stretch fitness, assorted word and trivia games and, of course, Halloween Trivia. We also conducted our Residents Council meeting by meeting individually with council members. Residents have been very understanding about the current circumstances and have enjoyed their Life Enrichment visits. For many, this is an important time for life review and conversation. To all of our families and colleagues, thank you for your kind thoughts and prayers.

We are doing our best to stay positive during these very challenging times. Please continue to pray for all of us as we work through this.

Please continue to stay safe and refer to the CDC website for information about COVID-19:
<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

Thank you again for your continued support, love and prayers.

Thank you,

Kate McCracken LNHA, MHA
