December 26, 2020

Good afternoon,

I fear I must report that we had staff member test positive with this last round of testing. He/she works in the kitchen which unfortunately results in the kitchen crew being out on quarantine again.

I am awaiting the results of one more person, but everyone else was negative.

Positivity with only one person - as this is - indicates that this is community acquired. I have stressed the importance of continued diligence in WEARING A FACE MASK, SOCIAL DISTANCING AND PROPER HAND HYGIENE with my staff.

I will keep you informed as I learn the results of my one outstanding test result.

Luckily, this one, positive staff person does not put us back into outbreak status as it was not acquired in the facility - so we can be thankful for that.

I will be so thankful as we, the staff and residents here at St. Ann, begin getting vaccinated this coming week.
