December 23, 2022

Good afternoon

I fear I must report that this morning we had 1 resident test positive for COVID. He/she has been placed on precautions and all residents were tested with no further positive results. We have one other resident from the same unit that is symptomatic- we will monitor and will re-test tomorrow. He/she has also been placed on precautions. We will retest all residents on Christmas Day

We have opted to pause all communal dining and group activities until we know if this is contained to one case or not.

Thank you,

Kate McCracken, LNHA, MHA
