April 11, 2023

Good afternoon family & friends of St Ann,

I regrettably need to inform you that today we had 2 residents on the skilled unit test positive for COVID today. These residents are in fact roommates and both had encounters with family gathering this past weekend for Easter – I fear this is how they may have acquired it.

Both residents were placed on precautions and informed of their positive test results. Family is in process of being notified from nursing so they can be on alert to monitor for any signs and symptoms.

Should you have any questions or concerns- please contact either myself or Brian Ball- Interim DNS.

Thank you,

*Kate McCracken, LNHA, MHA*
